

PURPOSE: The basic purpose of the non-competitive Herding instinct Test is to assess the herding capabilities of the breed and individuals within the breed, and to encourage herding activities with Bearded Collies. In addition, the results obtained by collecting general statistics will aid the BCCA and breeders to enhance and improve the herding abilities of the Beardie by offering an awareness of the status of the breed overall in its herding instincts. MINIMUM AGE: 6 months (per SR SR 02/08-05).

SPONSORS: The Sponsor for a BCCA Herding Instinct Test should be a Club, but may also be an individual. In either case, the Sponsor MUST have Liability Insurance in force at the time of the Test, and proof of Liability Insurance must be supplied to the BCCA Herding Committee by any applicant wishing to Sponsor such Tests. A waiver of liability should be signed by each entrant in the event; this waiver may be included in the entry form or may be a separate form.
